

BusyLine Switch

Telephone Line Interrupt Protector

Prevent others from interrupting or breaking in on your phone call or internet session.

Key Features:

- **Internet Session Interrupt Protection** - prevents connection loss when someone picks up an extension phone or tries to use the fax machine.
- **Extension Phone Breakthrough** - spiral button allows for extra extension participation in a call. When call ends, the BusyLine Switch automatically resets itself to provide interrupt prevention.
- **Easy Installation** - powered by the telephone line, there's no need for batteries or a power adapter.
